

## Contest Information: Illustrations (Philippines)

Daekyo, one of the leading players in the global education industry brings us the 22<sup>nd</sup> Eye Level Literature Awards. For more than 20 years now, it has been discovering literary talents in Seoul, South Korea. The contest has widened its scope through welcoming participants from its overseas counterparts. While the contest is still open for amateur and professional writers for Short Story Category, this year's Illustrated Category takes a peek at the colorful and vibrant world of children's imagination.

Kindergarteners and elementary students can get a chance to win a trip to Korea and have their works published in the Eye Level 2015 Calendar or be included in an illustrated book for kids.

So let those imaginations run wild. Grab a drawing pen and make magic!
